Objective

Develop a profit center in a company or consulting firm valuing my best experience

Experience

After more than 30 years of activities in information technology, with a solid experience of an **entity manager of consulting**, I now work in PM&Co consulting firm as **Executive Consultant** on consulting assignments - digital transformation, strategy, expertise, organization - and project management.

Previously, I successfully supervised several missions on IT strategy as **program director** and **senior consultant**, and I managed major **transformation/organization projects** and business assessments (banking, insurance, retail).
